HOMEWORK: Reading for C++

Please read the following three articles on code structure and documentation and summarize. Return a single pdf file with the summaries. Please make sure to include a list of questions you might have either on what you do not understand or items you are curious about and would like more information on.

- **Article 1**
  http://en.wikibooks.org/wiki/C_Programming/Structure_and_style
  C Programming/Structure and style

- **Article 2**
  http://www.cplusplus.com/doc/tutorial/tut1-1.html
  Structure of a C++ program

- **Article 3**
  http://d3rxqy8m5km8r7.cloudfront.net/features/successful-strategies-for-commenting-code/
  Successful strategies for commenting code
